Tools are ordered by where they sit between a customer finding you and you getting paid.

Do this in week one

- [ ] DAY 1 TO 2
  ManyChat: Build one flow that sends your price list when someone comments PRICE on your top post.
- [ ] DAY 3 TO 4
  Meta Business Suite: Link your Facebook page and Instagram, then schedule three posts for next week.
- [ ] DAY 5 TO 7
  Paystack: Create a payment link for your best-selling item and send it to one customer.
- [ ] DAY 7
  Write down hours saved and questions answered. Keep the tool that helped most and drop the rest.

About this sample

This is a static snapshot of one example run from the MyStack Naija prototype. The live version is an interactive page where the owner answers 10 questions. Explanations are generated from rules and templates, not by a live AI call. The tool catalog tags and cost tiers are hand-set drafts and need checking before the demo.
